

About ISOBC

JICS is Indexed in ISI

Iran Society Of Biophysical Chemistry (ISOBC) is a professional organization founded in 2002 with nearly 100 members in Iran and a number of other countries. The main objective of ISOBC is to foster and promote international communication, mutual interchange and cooperation in the diverse field of science and technology. In this regard, ISOBC encourages development and dissemination of knowledge in Biophysical Chemistry through its Bulletin, Annual Meeting, smaller Discussion Workshop and so on. Furthermore, ISOBC joined with Iranian Society of Biochemistry (ISB) as sister societies are associate adhering body of IUBMB (International Union of Biochemistry and Molecular Biology)

The contemporary executive secretariat ISOBC is Institute of Biochemistry and Biophysics, University of Tehran, Tehran, Iran.

Administration:

A.A.Moosavi-Movahedi ,President, Professor of Biophysical Chemistry

A.A.Saboury , General Secretary, Professor of Biophysics

B. Ranjbar, Treasurer, Associate Professor of Biophysics

B. Farzami, The member of Executive Board of Society

Professor of Biophysical Chemistry

M.R.Omidkhah, ,representative of ISOBC in industry and member of executive board

Z. Mousavi, ISOBC Secretariat,

JICS is indexed in ISI products including:

- 1) Science Citation Index-Expanded (SCIE) including the Web of Science (WOS)
- 2) ISI Alerting Service
- 3) Chemistry Citation Index (CCI)

7th Iran Biophysical Chemistry Conference Tabriz, July 18-19 2006

Objectives:

The main objective of this conference is to identify and introduce the innovative and effective scientific methods and talents. In this conference the most distinguished experts in the related fields will deliver some lectures on their most recent advances and achievements with the hope of promoting mutual exchange and communication.

The Conference Awards

The Distinguished Honor of Global Science Contribution, awarded to the individual scientist who has obtained many various and innovative achievements in scientific research and education as well as in the national and international universities, journals.

ISOBC Prizes: ISOBC is also pleased

to award . Tier 1, Tier 2 and Tier 3 to the best articles submitted in this conference.

Individual Young Award will be awarded to a young PhD scientist who has conducted the most innovative research and achieved international recognition. This prize will be awarded by one of the distinguished professors and experts from his own private source of expense.

Address of the Office of Organizing Committee:

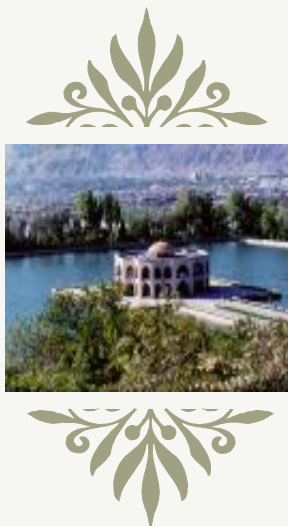

Research Institute for Fundamental Sciences, Tabriz University,
3rd floor, # 638, Imam Khomeyni St.,
Tabriz.

The 13th Iranian Conference on Biomedical Eng.

The 13th Iranian Conference on Biomedical Engineering (ICBME2007) will be held in Sharif University of Technology, Tehran, Iran on February 21 -22 2007. We would like to invite you to participate in this exciting scientific event in the country. The conference covers latest academic and industrial developments in various areas of Biomedical Engineering through different sessions including: Invited talks

- Plenary oral presentations
- Poster presentations

- Technical workshops
 - Exhibitions The first Call for Paper is submitted with this email for your convenience (ICBME2007CallForPaper.pdf) . All universities profs., researchers, students and biomedical industrialists are welcome to present the results of their recent researches and innovations as papers, workshops, and special session. Organization Committee of ICBME2007. Sharif University of Technology
 Tel / Fax: +98(21) 66165905
 Email: icbme2007@sharif.edu

➤ *A man should look for what is, and not for what he thinks should be.*
 ➤ *A perfection of means, and confusion of aims, seems to be our main problem.*
 ➤ *A person who never made a mistake never tried anything new.*
 ➤ *All religions, arts and sciences are branches of the same tree.*
Albert Einstein

2007 World Conference of Stress, Budapest, Hungary

2007 World Conference of Stress, Budapest, Hungary, Centennial anniversary of Hans Selye, the founder of the stress concept

Symposium Proposals and Pre-registration: The

symposia topics can be changed/enriched with your suggestions. Please send us your symposium proposal with a brief description by no later than April 30th to the address of

the Secretary of the Organizing Committee: korcsmaros@stress07.com

The European Association of Addiction Therapy Second Annual Conference, 6 - 8 July 2006, Westminster, London

The conference will provide updates on all aspects of Addiction and its treatment. For the full conference programme, to register or to find more information please visit our website www.eaat.org Only 30 days until EAAT 2006
 Do not miss your chance to

attend this meeting
 Take the opportunity to Register now.
 The conference is taking place in one months time. Please visit the website to register for this meeting. We look forward to welcoming you to the conference.

20th Symposium of The Protein Society
August 5-9, 2006, San Diego, California

The meeting organizers, Arthur Horwich (Yale School of Medicine/HHMI and The Scripps Research Institute) and Benjamin F. Cravatt III (The Scripps Research Institute), have organized an exceptional scientific program. The Protein Society is considering submitted abstracts from scientists, including young investigators and undergraduates. Selected young investigators will present in

the scientific sessions, and selected undergraduates and faculty will present in the Undergraduate Research Session. Visit the Symposium Website for the latest meeting information.

Our scientific power has outrun our spiritual power, we have guided missiles and misguided men.
Martin Luther King Jr.

The Second International Conference on Bio-, Nano-, Informatics Fusion - Oct 9 - 12, 2006 in Beijing China

With the success of last year's International Conference on Bio-, Nano-, Informatics Fusion (www.bnifusion.org- to see last years event), you can attend the second meeting of the conference, to be held at Beijing, China this year on October 9 -12, 2006. Visit [.the](http://www.capitalbio.com/)

website www.capitalbio.com/ BNI&IFBT2006 for detail information and registration We expect another successful event this year, and the third meeting for next year is currently planned to be held in Europe.

First Issue of African Journal of Biotechnology

One key request of researchers from developing countries is open access to scientific publications. The African Journal of Biotechnology is fully committed to providing free access to all articles www.academicjournals.org/ajb/contents/2006cont/2May.htm

What are Science Slides?

Science Slides is a lecture and seminar companion for Microsoft PowerPoint aimed at helping scientists and teachers to quickly create professional slides. Available for both Mac OSX and Microsoft Windows, for more information and a demonstration about Science Slides 2006 visit www.visiscience.com

Science knows no country, because knowledge belongs to humanity, and is the torch which illuminates the world. Science is the highest personification of the nation because that nation will remain the first which carries the furthest the works of thought and intelligence.

Louis Pasteur

The Journal of Pharmaceutical Innovation

The Journal of Pharmaceutical Innovation is an international scientific peer-reviewed Journal intended for the publication of research and review manuscripts emphasizing new and innovative methods and techniques used by pharmaceutical professionals serving all aspects of the industry including Manufacturing, Applied Pharmaceutical Science and Technology in Process and Product Understanding and Control. The Editors seek original manuscripts for publication, in any of the following categories:

Perspectives are opinion articles on controversial topics or recent developments in the industry, or can cover strategic industry issues, new areas of research, profiles of new research organizations or industry trends.

Case Studies provide a critical analysis

of the implementation of a new method or technology.

Research Letters are short papers reporting results that are of genuinely broad interest, but that do not make a sufficiently complete story to justify publication as a full Research Article.

Research Articles describe, in detail, new and innovative methods and techniques, with conclusions that are supported by adequate evidence. Scientific rigour and reproducible results are required.

Reviews may address both the recent scientific advances in drug development, pharmaceutical engineering, and manufacturing, as well as the management, commercial and regulatory issues that increasingly play a part in how R&D is planned and performed. For further information on contributing, contact: jpi@elsevier.com
